

TPP Will Eliminate ALL Foreign Import Taxes on Industrial and Consumer Goods

The Trans-Pacific Partnership (TPP) will provide American-made products new access to some of the fastest-growing markets in the world. TPP will eliminate over 18,000 taxes various countries place on Made-in-America exports—including all tariffs on U.S. manufactured exports. **In fact, 98 percent of U.S. industrial and consumer exports to the new TPP countries will be eligible for immediate duty-free treatment.**
