

Requesting a User ID and Password for New Users

The DOCHROC received the HR Connect (HRC) system on June 25, 2013. During the next few weeks, DOCHROC will be the primary users of the HRC. This is a change to what was previously decided. The DOCHROC wants to ensure functionality is properly working with the live data before it is released to managers and employees. In addition, there are other tasks that must be completed in the production site.

Question: When will supervisors and employees be able to register on HR Connect (HRC)?

Answer: The DOCHROC will deploy HRC to employees and managers in the 4th quarter of 2013. In the interim, the DOCHROC will continue to offer training and briefings on this new system to include lesson learned from the initial deployment. DOCHROC will inform employees when to begin registering on HR Connect. Shortly after employees register, employees will receive an email from HR Connect with login and password information so that employees can begin using HR Connect.
