KNAACK POWERCREW™

Home About PowerCrew FAQ Online Dealers Register

Keep your crew safer with **PowerCrew™ In-Box Power Supply** by KNAACK

Jerry-rigging an in-box power supply by cutting a hole in the side of a jobsite storage box can lead to frayed cords, dangerous shocks, fire or worse.

PowerCrew™ In-Box Power Supply by KNAACK is the industry-exclusive solution for worry-free power supply.

The Knaack PowerCrew™ In-Box Power Supply received a prestigious honor recently when it was selected as one of the *Professional Builder* and *Professional Remodeler* magazines' "100 Best New Products" picks for 2009.

100 BEST new products

Buy Now! **\$99/Unit** (price by dealer)

"Meade has purchased approximately 25-40 PowerCrew units for gang boxes. PowerCrew is a great idea that saves time and money on the jobsite, and is much safer than running extension cords. We use PowerCrew primarily for charging power tools day and night, as well as our hand-held radios. Prior to PowerCrew, we would have to charge in the trailers which could be far away from the work being done."

— Greg A. PURCHASING DIRECTOR
MEADE ELECTRIC
MCCOOK, IL

He got the fire out and now he's putting in PowerCrew™

POWERCREW™ IN-BOX POWER SUPPLY

NO-FRY ZONE

He put the fire out. Now he's putting PowerCrew in.

No more cutting a hole in a jobsite box and running power cords through to charge your tools. That can lead to frayed cords, shocks, even fire. Now there's a better way. PowerCrew™ the only in-box power solution. With PowerCrew you have a much safer, weatherproof, shock-resistant alternative. And best of all, it fits any brand of jobsite box.
