Dear Ms. Labat:

Subject: Request for Public Comments on a Commercial Availability Request Under the US-Morocco Free Trade Agreement; whether certain knit fabrics can be supplied by the U.S. domestic industry in commercial quantities in a timely manner.

Thank you for the opportunity to comment on the Government of Morocco's request (for SALSABILE) to change the rules of origin in the U.S.- Morocco Free Trade Agreement (USMFTA) for nineteen knit fabrics, they claim are not available in Morocco, nor from U.S. companies.

We object to the request, as Milliken can provide the knit fabrics subject to this request and we welcome the opportunity to discuss knit programs with executives at SALSABILE.

Milliken is a U.S. manufacturer of knit and woven fabrics, specialty chemicals and carpet - with headquarters in Spartanburg, South Carolina; employing more than 7,000 associates at 43 facilities worldwide.

Milliken's Hatch plant, located in Columbus, NC houses modern knitting equipment capable of producing a variety of unique fabric solutions. Our machinery has interchangeable cylinders which allows for speed, flexibility and a wide range of gauge options. The Milliken associates at the Hatch plant bring a breadth of knowledge and experience to the operation, which has been active as a knit facility for decades. According to the plant manager, Milliken can source yarns for the fabrics needed by SALSABILE for use in the U.S.- Morocco Free Trade Agreement and other free trade and preference programs.

Currently Milliken produces one of the fabrics (highlighted below) listed in the November 6, 2017 Federal Register Notice. However, according to our knit fabric development team, we can provide all the knit fabrics listed in this request.

In conclusion, based on Milliken's ability to provide the specific apparel knit fabrics, we object to the request and look forward to opening channels of communication with SALSABILE. Please direct this communication to Steve Josey, head of business development for our knit fabric division (Steve.Josey@Milliken.com).

Again, thank you for the opportunity to comment on this request to change the rules of the U.S.-Morocco Free Trade Agreement.

Sincerely,

Jeff Price
President, Performance and Protective Textiles
