RE: U.S. – Singapore Free Trade Agreement

Dear Sir:

I am writing in reference to the Singapore FTA currently in consideration.

FesslerUSA is a vertically integrated manufacturer of knit fabrics and knit apparel. After reviewing the knit fabrics, construction and content listed in the FTA we wanted to inform you that we as a company are capable of producing every single knit fabric listed. I am also aware of and have business relationships with at least a dozen other USA based knitting manufacturers that are also capable of producing these fabrics in bulk for commercial use. Signing a Free Trade Agreement with another country for materials that are currently and readily available will negatively impact our business as well as many others here in our own Country.

Feel free to contact me if you would like to discuss this matter.

Sincerely,

Brian C. Meck
Vice President of Sales and Marketing/Co-Owner
FesslerUSA
