

Mr. Gregory Glaros is the Chief Executive Officer of SYNEXXUS, Inc. an American Engineering, Manufacturing, and Lead System Integration Company. For 18 years SYNEXXUS has manufactured Capability Maturity Model Integration (CMMI) Level 3 electronic hardware and software systems. These systems integrate sensors on vehicles and vessels. Product lines include the command and control of large numbers of autonomous and semi-autonomous systems, complex system design, the manufacturing of rugged data distribution systems, cyber secure architectures for armored vehicles, and carbon fiber vessels. SYNEXXUS' field operations are global.

SYNEXXUS is seeking from Taiwanese suppliers and manufacturers, components for unmanned aerial vehicles (UAV) as well as complete low-cost drones capable of carrying 2 to 10 pounds (1-5 kg). UAV components we are seeking include: brushless and brushed motors, propellers for left & right rotation, micro receivers capable of frequency hopping or reprogramming, micro-GPS and compasses, video modules, batteries, thermal imaging modules, video transmitters, flight controllers, and motor speed controllers.

SYNEXXUS is also seeking an exclusive manufacturing partner for low-cost surveillance and sensor drones both aerial and sea-based drones and autonomous platforms.

The graphic contains the following sections:

- Products:**
 - SYNEXXUS provides market leading Stealth Vessels & edge-computing and cloud service solutions for the toughest technical problems & operational sectors
 - Systems, hardware and software Integrates any sensor, application, devise within any platform – feeding big data analytics securely.
- Market Leader:**
 - Vertically integrated Eng. Company – Consistent Quality
 - Market leader in Cyber-Secure Networked Edge Computing
 - Market Leader in Maritime Carbon Fiber Manufacturing
 - Market Leader in Smart Grid Health Monitoring & Security
 - Market Leader in Low Signature Vessel Shaping
 - Standard Bearer for U.S. Cyber-Security Policy
- Company History:** Founded in 2006 – Market leader in platform integrated solutions through the use of its rugged and proven military architectures. Privately held, decade-long profitability, cash flow positive company. Launches ~three (3) new platforms in a year.
- Aerospace & Defense Applications:** Single cyber-secure patented Data Distribution architectures deployed on vehicles, vessels, aircraft – Integrates any radio, sensor, camera or unmanned drone – for local or network control.
- Showcase:** Includes a complex system architecture diagram, a poster titled 'SYNEXXUS THE DATA DISTRIBUTION EXPERT', and a photograph of a stealth vessel.
- Operational Excellence:** Operational Full Support, Strategic Partnerships, In-House Engineering Design, In-House Manufacturing, CMMI DEV/3, ISO.
- Locations:** Arlington, Virginia; Annapolis, Maryland. <http://www.SYNEXXUS.com>
- Contact:** Annapolis, MD 21401; Arlington, VA; Gregory Glaros; gregory@synexxus.com; 401-855-9600; www.synexxus.com
- Operations:** SYNEXXUS has operated continuously for 16 years in – Iraq, Afghanistan along with support of Qatar and Republic of India

格雷戈里·格拉洛斯先生是 SYNEXXUS, Inc.的執行長，這是一家美國的工程、製造和系統整合公司。SYNEXXUS 18年來一直力於開發製造 CMMI (能力成熟度模型整合)三級的電子硬體和軟體系統。這些系統整合了車輛和船隻上的感測器。產品包括大量自主和半自主系統的指揮與控制、複合系統設計、堅固的數據分發系統、裝甲車輛與碳纖維船隻的網絡安全架構。

SYNEXXUS 的現場運營是全球性的。

SYNEXXUS 正在尋求來自台灣供應商和製造商的無人飛行器 (UAV) 組件以及能夠負載2至10磅 (1-5公斤) 的低成本無人機。我們正在尋找的UAV組件包括：無刷和有刷電機、左旋和右旋螺旋槳、能夠頻率跳躍或重新編程的微型接收器、微型GPS和指南針、視訊模組、電池、熱成像模組、視訊傳送器、飛行控制器和電機速度控制器。

SYNEXXUS 也在尋找一個獨家製造夥伴，製造低成本的監控和感測無人機，包括空中和海上無人機以及自主平台。
